Access to some Thomson Reuters (Scientific) databases is provided under a discounted pricing structure (Preferential Rates) for Thomson Reuters (Scientific) subscribers.

In the case of *Derwent World Patents Index*, organisations may be entitled to access at a discounted rate where they spend more than a specified amount on the 2010 Core Service product lines.

Please note that the list of Core Service product lines does not include online usage itself or document delivery.

### Preferential rates and ID clearance

---

Eligible organisations are not considered cleared for online access at Preferential Rates until they have received written authorisation from Thomson Reuters (Scientific) confirming clearance.

Additional logon IDs for Preferential Rate users are not automatically cleared for Preferential Rates. To enable clearance, customers must send Thomson Reuters (Scientific) written details of any additional IDs or changes in IDs.
